

Liberalism means freedom

To us it's obvious that everyone has the right to handle their own lives.

Our politics focus on the individual because we know everyone has different dreams och conditions. Everyone needs a fair chance to start out, if freedom shall not only be for the privileged. That's why we help, take responsibility for each other and pay the welfare together. That is the fondation of social liberalism which has been our ideology since the early 19-hundreds.

We want more people to work and make their own living. We want school to be a quiet working environment for pupils. We want disabled to have sufficient support and we will never stop fighting against honor's violence. It's all about the same; to defend everyone's right to handle their own life.

Voting for us is voting for a more liberal Lilla Edet focusing on the individual and freedom of choice for our citizens. The election is closing in. Then it's your choice to decide how liberal you want Lilla Edet to be.
